The diagram illustrates a process flow:

- Input:** Text (Any language) is processed by **Sentiment Analysis** (Emotion Detection).
- Output:** The process results in an emotion.
- Intermediate Step:** The output of the sentiment analysis is fed into a **RoBERTa** model.
- Annotation:** A checkmark (✓) is placed next to the input text, and the word "whisper" is written above it.

A decorative horizontal line consisting of a series of small, dark, circular marks.
